Inspection

Type: ROUTINE INSPECTION

Date: JUL-17-2007

2.131 (c)(1)

HANDLING OF ANIMALS.

2.131(b)(1) - During public exhibition, any animal must be handled so there is minimal risk of harm to the animal and to the public, with sufficient distance and/or barriers between the animal and the general viewing public so as to assure the safety of animals and the public. There were three tigers present that were used for direct public contact that were too large for safe contact with the public. The inspector was told by an authorized handler that the tigers were about 4 days old when acquired on 3/4/07. An acquisition form confirmed the date of acquisition. The age of the tigers would be 20 weeks on 7/18/07 according to this documentation. The inspector was shown a rabies certificate for one of these tigers that listed the date of birth as 2/21/07. The age of the tigers would be 21 weeks on 7/18/07 according to this documentation. These tigers are too large for safe public contact. Public contact with these tigers must be stopped immediately.

Correct by: Correct immediately.
